NEW ARRIVALS Paint Pails

about us

Established in 2004

BHAVANI POLYMERS is ten years young, high-tech, innovative, and with the vision and passion to supply the need of manufacturers for rigid packaging of industrial products. Within a decade, we have emerged as a leading supplier of plastic bottles and containers in India, for pesticides, industrial chemicals, pharmaceuticals, food products, bio-fertilizers, aqua, health care products, and household applications.

High End Packaging Solutions

In 2009, we started CHIRRA POLYMERS & COASTAL BLOW PACK, to expand our capacities and add greater value to our supply of containers and caps.

Our state of the art production facilities are located at Guntur, manned by more than 150 people, and spread over 24,000 sq. ft. We have the capacity to convert 1800 metric tons p.a. of various engineering plastics into high quality injection and blow-molded products.

Customer Satisfaction and Quality Adherence

Customer satisfaction results from adherence to values and metrics by our dedicated and scientific Quality Control Department operating across all manufacturing locations. Every product meets the stringent quality standards of customers to the fullest.

Our globally sourced technology produces the highest quality of injection, and blow-molded products, earning the respect and loyalty of our customers. We intend to enhance our market share with proven credentials of quality, ethics and pro-activeness.

Expertise and Innovation

Bhavani Polymers offers advance expertise in product development and consolidated packaging solutions, while remaining cost-sensitive and customer friendly. We provide customised packaging solutions to a wide range of industries, combining it with flexibility in approach to customer requirements, and a high level of service. The Company goes beyond manufacturing capabilities and technical expertise, to being proactive in finding packaging solutions that are cost effective, environment friendly, and tailor-made for specific applications.

Our extensive and exclusive product range is constantly reviewed by a team of creative experts engaged in constant innovation and problem solving.

Our strong and sustained growth is an indicator of the company's winning formula for meeting customer demands. After all, the customer is the reason for our existence and performance.
